EXCEEDING EXPECTATIONS!

Welcome to Midwest Landscapes 2019

Proudly serving customers for over 45 years

Midwest Landscapes is a grower and supplier of nursery stock for the Landscape and Nursery Industry.

All of us at Midwest thank you for your business and want you to know we appreciate all the support we have received. That said...with business, comes growth. In 2019, we are expanding our growing range to more than double its size. This means we will continue to grow the tree varieties that already do well in our area. At the same time, we will be broadening our Field Direct Program to include more Evergreen, Shade and Ornamental varieties that will be in demand for the future.

Our wholesale yard holds 11,000+ balled and burlapped deciduous and evergreen trees. We also hold and supply container trees, shrubs and perennials, all available for season long pick up. Our wholesale staff is well versed in handling and loading plant material, and we look forward to helping you with your plant material needs.

Our years in business have taught us much about the plants we grow and supply. We are happy to pass along this information to you, and welcome the opportunity to quote any projects you may be bidding on during the year. If there are specific sizes or varieties of plants you need, let us know and we can locate the material or provide hardy alternatives that will work in their place.

Midwest is proud of the long standing, supportive customer relationships we have gained, and look forward to developing & fostering new relationships with others in our industry. We pride ourselves in being small enough to give you the personal service you desire, while making your trips to our nursery efficient and easy.

We invite you to visit our yard and nursery, and are located NW of the Twin Cities just off 94 in Otsego MN. Thank you for taking the time to review our 2019 catalog and feel free to call with any questions or to set up a tour to see our operation.

We would love to have you come for a visit!
